REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-66 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest the orientation being equal to half of a desired geometrical phase modulus 2π wherein each grating with a local period being smaller than the wavelength of the incident light beam as set forth in the claimed combination in each independent claim.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Shemo et al. (US 2008/0226844 A1): The reference teaches a spatially variant phase shift which shapes the optical beam wave front.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fayez G. Assaf whose telephone number is (571) 272-2307. The examiner can normally be reached on 8-5 M-F.
